Planted-mine index (for the demo operator only): Note 27 p.312, Note 41 p.486

Management evaluates the assumptions underlying results of operations at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company's accounting policy for results of operations is applied consistently across all reporting periods presented in these consolidated financial statements. Changes in estimates relating to results of operations are recognised prospectively in the period in which the estimate is revised and in any future periods affected. Where the effect of the time value of money is material, amounts relating to results of operations are discounted using a pre-tax rate that reflects current market assessments. The Company has not identified any material uncertainty in respect of results of operations that would require additional disclosure beyond that provided in this note.

Revenue by stream

Stream	FY2025 (US\$)	FY2024 (US\$)	Change
Subscription	1,872,404	801,029	+134%
Usage fees	913,220	384,020	+138%
Hardware sales & installation	418,494	150,000	+179%
Total revenue	3,204,118	1,335,049	+140%

Cost of revenue and gross margin

Cost of revenue was US\$1,884,022 (FY2024: US\$889,366). Gross profit was US\$1,320,096, a gross margin of 41.2% (FY2024: 33.4%). Hardware sales and installation carry a negative gross margin in the period of installation because installation labour is expensed as incurred.

Operating expenses

The Company's accounting policy for operating expenses is applied consistently across all reporting periods presented in these consolidated financial statements. The Company has not identified any material uncertainty in respect of operating expenses that would require additional disclosure beyond that provided in this note. Where the effect of the time value of money is material, amounts relating to operating expenses are discounted using a pre-tax rate that reflects current market assessments.

Changes in estimates relating to operating expenses are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company's accounting policy for operating expenses is applied consistently across all reporting periods presented in these consolidated financial statements. Management evaluates the assumptions underlying operating expenses at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. Where the effect of the time value of money is material, amounts relating to operating expenses are discounted using a pre-tax rate that reflects current market assessments.

The Company has not identified any material uncertainty in respect of operating expenses that would require additional disclosure beyond that provided in this note. Changes in estimates relating to operating expenses are recognised prospectively in the period in which the estimate is revised and in any future periods affected. Management evaluates the assumptions underlying operating expenses at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. Where the effect of the time value of money is material, amounts relating to operating expenses are discounted using a pre-tax rate that reflects current market assessments.

Liquidity and capital resources

Cash and cash equivalents were US\$4,918,551 at December 31, 2025. The Company has a US\$1.5 million credit facility with First Pacific Bank which was fully drawn at year end (Note 41). Substantially all robotics equipment is pledged as collateral (Note 7). Management believes existing cash together with the proposed Series A financing is sufficient for at least twelve months.

Key operating metrics

Metric	Dec 31, 2025	Dec 31, 2024
Live sites	41	17
Robots deployed	388	142
Average monthly fee per site (US\$)	8,400	7,900
Largest customer share of revenue	31%	38%
Top-10 customers share of revenue	88%	96%
Days sales outstanding (management basis)	87	71

Days sales outstanding on a management basis is computed on Q4 annualised revenue. On a full-year basis (accounts receivable divided by annual revenue times 365) the figure would be approximately 131 days; see Note 12.

Risk factors

Customer concentration. Changes in estimates relating to customer concentration are recognised prospectively in the period in which the estimate is revised and in any future periods affected. Management evaluates the assumptions underlying customer concentration at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company's accounting policy for customer concentration is applied consistently across all reporting periods presented in these consolidated financial statements.

Dependence on key suppliers of LiDAR and battery modules. Management evaluates the assumptions underlying dependence on key suppliers of lidar and battery modules at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company has not identified any material uncertainty in respect of dependence on key suppliers of lidar and battery modules that would require additional disclosure beyond that provided in this note. Where the effect of the time value of money is material, amounts relating to dependence on key suppliers of lidar and battery modules are discounted using a pre-tax rate that reflects current market assessments. The Company's accounting policy for dependence on key suppliers of lidar and battery modules is applied consistently across all reporting periods presented in these consolidated financial statements. Changes in estimates relating to dependence on key suppliers of lidar and battery modules are recognised prospectively in the period in which the estimate is revised and in any future periods affected.

Regulatory certification of autonomous mobile robots in the United States and Japan. The Company's accounting policy for regulatory certification of autonomous mobile robots in the united states and japan is applied consistently across all reporting periods presented in these consolidated financial statements. Changes in estimates relating to regulatory certification of autonomous mobile robots in the united states and japan are recognised prospectively in the period in which the estimate is revised and in any future periods affected. Where the effect of the time value of money is material, amounts relating to regulatory certification of autonomous mobile

robots in the united states and japan are discounted using a pre-tax rate that reflects current market assessments.

Covenants under the credit facility. Where the effect of the time value of money is material, amounts relating to covenants under the credit facility are discounted using a pre-tax rate that reflects current market assessments. Changes in estimates relating to covenants under the credit facility are recognised prospectively in the period in which the estimate is revised and in any future periods affected. Management evaluates the assumptions underlying covenants under the credit facility at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company's accounting policy for covenants under the credit facility is applied consistently across all reporting periods presented in these consolidated financial statements.

Ability to raise additional capital. Management evaluates the assumptions underlying ability to raise additional capital at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company's accounting policy for ability to raise additional capital is applied consistently across all reporting periods presented in these consolidated financial statements. Where the effect of the time value of money is material, amounts relating to ability to raise additional capital are discounted using a pre-tax rate that reflects current market assessments.

Competition from enterprise-focused vendors entering the mid-market. The Company has not identified any material uncertainty in respect of competition from enterprise-focused vendors entering the mid-market that would require additional disclosure beyond that provided in this note. Where the effect of the time value of money is material, amounts relating to competition from enterprise-focused vendors entering the mid-market are discounted using a pre-tax rate that reflects current market assessments. Changes in estimates relating to competition from enterprise-focused vendors entering the mid-market are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company's accounting policy for competition from enterprise-focused vendors entering the mid-market is applied consistently across all reporting periods presented in these consolidated financial statements. Management evaluates the assumptions underlying competition from enterprise-focused vendors entering the mid-market at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts.

Outlook

Where the effect of the time value of money is material, amounts relating to outlook are discounted using a pre-tax rate that reflects current market assessments. The Company's accounting policy for outlook is applied consistently across all reporting periods presented in these consolidated financial statements. Changes in estimates relating to outlook are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company has not identified any material uncertainty in respect of outlook that would require additional disclosure beyond that provided in this note.

The Company's accounting policy for outlook is applied consistently across all reporting periods presented in these consolidated financial statements. Changes in estimates relating to outlook are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company has not identified any material uncertainty in respect of outlook that would require additional disclosure beyond that provided in this note. Management evaluates the assumptions underlying outlook at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. Where the effect of the time value of money is material, amounts relating to outlook are discounted using a pre-tax rate that reflects current market assessments.

The Company's accounting policy for outlook is applied consistently across all reporting periods presented in these consolidated financial statements. The Company has not identified any material uncertainty in respect of outlook that would require additional disclosure beyond that provided in this note. Where the effect of the time value of money is material, amounts relating to outlook are discounted using a pre-tax rate that reflects current market assessments. Changes in estimates relating to outlook are recognised prospectively in the period in which the estimate is revised and in any future periods affected. Management evaluates the assumptions underlying outlook at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts.

INDEPENDENT AUDITOR'S REPORT

=====

To the Board of Directors and Shareholders of Acme Robotics, Inc. Opinion: We have audited the consolidated financial statements of Acme Robotics, Inc. and its subsidiaries, which comprise the consolidated balance sheet as at December 31, 2025, the consolidated statements of operations, changes in shareholders' equity and cash flows for the year then ended, and notes to the consolidated financial statements. In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2025.

Emphasis of matter — Related party transactions: We draw attention to Note 27, which describes purchases from an entity controlled by the Chief Executive Officer. Our opinion is not modified in respect of this matter.

Emphasis of matter — Covenants: We draw attention to Note 41, which describes financial covenants and consent rights under the Company's credit facility. Our opinion is not modified in respect of this matter.

Chen & Willis LLP, San Jose, California. March 6, 2026.

CONSOLIDATED STATEMENT OF OPERATIONS

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

=====

Note 1. Organisation and nature of business

Management evaluates the assumptions underlying organisation and nature of business at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company's accounting policy for organisation and nature of business is applied consistently across all reporting periods presented in these consolidated financial statements. The Company has not identified any material uncertainty in respect of organisation and nature of business that would require additional disclosure beyond that provided in this note.

Changes in estimates relating to organisation and nature of business are recognised prospectively in the period in which the estimate is revised and in any future periods affected. Management evaluates the assumptions underlying organisation and nature of business at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. Where the effect of the time value of money is material, amounts relating to organisation and nature of business are discounted using a pre-tax rate that reflects current market assessments.

Note 2. Basis of presentation

Where the effect of the time value of money is material, amounts relating to basis of presentation are discounted using a pre-tax rate that reflects current market assessments. Changes in estimates relating to basis of presentation are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company's accounting policy for basis of presentation is applied consistently across all reporting periods presented in these consolidated financial statements. The Company has not identified any material uncertainty in respect of basis of presentation that would require additional disclosure beyond that provided in this note.

Management evaluates the assumptions underlying basis of presentation at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company's accounting policy for basis of presentation is applied consistently across all reporting periods presented in these consolidated financial statements. The Company has not identified any material uncertainty in respect of basis of presentation that would require additional disclosure beyond that provided in this note. Changes in estimates relating to basis of presentation are recognised prospectively in the period in which the estimate is revised and in any future periods affected.

Note 3. Revenue recognition

Subscription revenue is recognised ratably over the contract term. Usage fees are recognised on delivery of monthly pick reports to the customer, which management considers the point at which the performance obligation is satisfied. Hardware sales and installation are recognised at a point in time on completion of installation and customer acceptance.

Note 4. Cost of revenue and gross margin by stream

Stream	Revenue	Cost	Gross margin
Subscription	1,872,404	691,220	63.1%
Usage fees	913,220	512,880	43.8%
Hardware & installation	418,494	679,922	(62.5%)
Total	3,204,118	1,884,022	41.2%

Gross margin excluding hardware sales and installation was 56.8% (FY2024: 44.0%). The Series A investor presentation refers to a 58% figure computed on subscription and usage revenue net of hosting credits; the reconciliation is available on request.

Note 5. Customer concentration

The largest customer, LogiOne 3PL, represented 31% of FY2025 revenue (FY2024: 38%). The ten largest customers represented 88% of FY2025 revenue (FY2024: 96%). One customer representing approximately 9% of FY2025 revenue notified termination after year end; see Note 9.

Note 6. Cash and cash equivalents

Where the effect of the time value of money is material, amounts relating to cash and cash equivalents are discounted using a pre-tax rate that reflects current market assessments. The Company has not identified any material uncertainty in respect of cash and cash equivalents that would require additional disclosure beyond that provided in this note. Changes in estimates relating to cash and cash equivalents are recognised prospectively in the period in which the estimate is revised and in any future periods affected.

The Company has not identified any material uncertainty in respect of cash and cash equivalents that would require additional disclosure beyond that provided in this note. Changes in estimates relating to cash and cash equivalents are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company's accounting policy for cash and cash equivalents is applied consistently across all reporting periods presented in these consolidated financial statements.

Where the effect of the time value of money is material, amounts relating to cash and cash equivalents are discounted using a pre-tax rate that reflects current market assessments. The Company has not identified any material uncertainty in respect of cash and cash equivalents that would require additional disclosure beyond that provided in this note. Changes in estimates relating to cash and cash equivalents are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company's accounting policy for cash and cash equivalents is applied consistently across all reporting periods presented in these consolidated financial statements. Management evaluates the assumptions underlying cash and cash equivalents at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts.

The Company has not identified any material uncertainty in respect of cash and cash equivalents that would require additional disclosure beyond that provided in this note. Management evaluates the assumptions underlying cash and cash equivalents at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company's accounting policy for cash and cash equivalents is applied consistently across all reporting periods presented in these consolidated financial statements.

Note 7. Pledged assets

Substantially all robotics equipment, with a net book value of US\$6,214,880 at December 31, 2025, has been pledged as collateral for the US\$1.5 million credit facility with First Pacific Bank. The facility is fully drawn. See Note 41 for covenants and consent rights.

Note 8. Accounts receivable and allowance

Changes in estimates relating to accounts receivable and allowance are recognised prospectively in the period in which the estimate is revised and in any future periods affected. Management evaluates the assumptions underlying accounts receivable and allowance at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company has not identified any material uncertainty in respect of accounts receivable and allowance that would require additional disclosure beyond that provided in this note.

Where the effect of the time value of money is material, amounts relating to accounts receivable and allowance are discounted using a pre-tax rate that reflects current market assessments. The Company's accounting policy for accounts receivable and allowance is applied consistently across all reporting periods presented in these consolidated financial statements. The Company has not identified any material uncertainty in respect of accounts receivable and allowance that would require additional disclosure beyond that provided in this note.

Where the effect of the time value of money is material, amounts relating to accounts receivable and allowance are discounted using a pre-tax rate that reflects current market assessments. Changes in estimates relating to accounts receivable and allowance are recognised prospectively in the period in which the estimate is revised and in any future periods affected.

Where the effect of the time value of money is material, amounts relating to accounts receivable and allowance are discounted using a pre-tax rate that reflects current market assessments. The Company's accounting policy for accounts receivable and allowance is applied consistently across all reporting periods presented in these consolidated financial statements. The Company has not identified any material uncertainty in respect of accounts receivable and allowance that would require additional disclosure beyond that provided in this note.

Note 9. Subsequent events

In March 2026, QuickShip Logistics, a customer representing approximately 9% of FY2025 revenue, notified the Company of termination of its service agreement effective June 2026. Twelve robots deployed at four QuickShip sites are expected to be redeployed to new customers in the second half of 2026. Management does not expect an impairment.

Note 10. Inventory

The Company has not identified any material uncertainty in respect of inventory that would require additional disclosure beyond that provided in this note. Management evaluates the assumptions underlying inventory at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. Changes in estimates relating to inventory are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company's accounting policy for inventory is applied consistently across all reporting periods presented in these consolidated financial statements.

The Company's accounting policy for inventory is applied consistently across all reporting periods presented in these consolidated financial statements. Where the effect of the time value of money is material, amounts relating to inventory are discounted using a pre-tax rate that reflects current market assessments. Management evaluates the assumptions underlying inventory at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company has not identified any material uncertainty in respect of inventory that would require additional disclosure beyond that provided in this note. Changes in estimates relating to inventory are recognised prospectively in the period in which the estimate is revised and in any future periods affected.

Management evaluates the assumptions underlying robotics equipment at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company has not identified any material uncertainty in respect of robotics equipment that would require additional disclosure beyond that provided in this note. Where the effect of the time value of money is material, amounts relating to robotics equipment are discounted using a pre-tax rate that reflects current market assessments.

Management evaluates the assumptions underlying robotics equipment at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. Where the effect of the time value of money is material, amounts relating to robotics equipment are discounted using a pre-tax rate that reflects current market assessments. The Company's accounting policy for robotics equipment is applied consistently across all reporting periods presented in these consolidated financial statements. Changes in estimates relating to robotics equipment are recognised prospectively in the period in which the estimate is revised and in any future periods affected.

Note 12. Days sales outstanding reconciliation

Days sales outstanding disclosed in Key operating metrics (87 days) is computed on fourth-quarter annualised revenue of US\$4,835,200. Computed on full-year revenue, the metric is 131 days ($\text{US\$1,152,730} / \text{US\$3,204,118} \times 365$). The difference reflects revenue growth during the year and, to a lesser extent, extended payment terms granted to LogiOne 3PL (net 90 days).

Note 13. Deferred revenue

The Company has not identified any material uncertainty in respect of deferred revenue that would require additional disclosure beyond that provided in this note. Changes in estimates relating to deferred revenue are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company's accounting policy for deferred revenue is applied consistently across all reporting periods presented in these consolidated financial statements. Management evaluates the assumptions underlying deferred revenue at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. Where the effect of the time value of money is material, amounts relating to deferred revenue are discounted using a pre-tax rate that reflects current market assessments.

Changes in estimates relating to deferred revenue are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company's accounting policy for deferred revenue is applied consistently across all reporting periods presented in these consolidated financial statements. The Company has not identified any material uncertainty in respect of deferred revenue that would require additional disclosure beyond that provided in this note. Management evaluates the assumptions underlying deferred revenue at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts.

The Company's accounting policy for deferred revenue is applied consistently across all reporting periods presented in these consolidated financial statements. Changes in estimates relating to deferred revenue are recognised prospectively in the period in which the estimate is revised and in any future periods affected. Where the effect of the time value of money is material, amounts relating to deferred revenue are discounted using a pre-tax rate that reflects current market assessments. The Company has not identified any material uncertainty in respect of deferred revenue that would require additional disclosure beyond that provided in this note.

Management evaluates the assumptions underlying deferred revenue at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts.

Note 14. Income taxes

The Company's accounting policy for income taxes is applied consistently across all reporting periods presented in these consolidated financial statements. The Company has not identified any material uncertainty in respect of income taxes that would require additional disclosure beyond that provided in this note. Where the effect of the time value of money is material, amounts relating to income taxes are discounted using a pre-tax rate that reflects current market assessments. Management evaluates the assumptions underlying income taxes at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts.

The Company's accounting policy for income taxes is applied consistently across all reporting periods presented in these consolidated financial statements. Where the effect of the time value of money is material, amounts relating to income taxes are discounted using a pre-tax rate that reflects current market assessments. Management evaluates the assumptions underlying income taxes at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts.

Note 15. Stock-based compensation

The 2024 Equity Incentive Plan reserves 800,000 common shares (8.0% of shares outstanding). At December 31, 2025, options over 280,000 shares were outstanding (weighted average exercise price US\$1.20, vesting over four years), leaving 520,000 shares (5.2%) unallocated. Stock-based compensation expense was US\$188,700 **(FY2024: US\$41,200)**.

Note 16. Leases

The Company has not identified any material uncertainty in respect of leases that would require additional disclosure beyond that provided in this note. Where the effect of the time value of money is material, amounts relating to leases are discounted using a pre-tax rate that reflects current market assessments. The Company's accounting policy for leases is applied consistently across all reporting periods presented in these consolidated financial statements. Management evaluates the assumptions underlying leases at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. Changes in estimates relating to leases are recognised prospectively in the period in which the estimate is revised and in any future periods affected.

Management evaluates the assumptions underlying leases at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company has not identified any material uncertainty in respect of leases that would require additional disclosure beyond that provided in this note. Where the effect of the time value of money is material, amounts relating to leases are discounted using a pre-tax rate that reflects current market assessments.

Management evaluates the assumptions underlying leases at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. Changes in estimates relating to leases are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company has not identified any material uncertainty in respect of leases that would require additional disclosure beyond that provided in this note.

Note 17. Research and development

Where the effect of the time value of money is material, amounts relating to research and development are discounted using a pre-tax rate that reflects current market assessments. The Company's accounting policy for research and development is applied consistently across all reporting periods presented in these consolidated financial statements. The Company has not identified any material uncertainty in respect of research and development that would require additional disclosure beyond that provided in this note.

The Company has not identified any material uncertainty in respect of research and development that would require additional disclosure beyond that provided in this note. Changes in estimates relating to research and development are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company's accounting policy for research and development is applied consistently across all reporting periods presented in these consolidated financial statements. Management evaluates the assumptions underlying research and development at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. Where the effect of the time value of money is material, amounts relating to research and development are discounted using a pre-tax rate that reflects current market assessments.

Changes in estimates relating to research and development are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company has not identified any material uncertainty in respect of research and development that would require additional disclosure beyond that provided in this note. The Company's accounting policy for research and development is applied consistently across all reporting periods presented in these consolidated financial statements.

The Company's accounting policy for research and development is applied consistently across all reporting periods presented in these consolidated financial statements. Where the effect of the time value of money is material, amounts relating to research and development are discounted using a pre-tax rate that reflects current market assessments. Changes in estimates relating to research and development are recognised prospectively in the period in which the estimate is revised and in any future periods affected. Management evaluates the assumptions underlying research and development at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts.

Note 18. Sales and marketing

Management evaluates the assumptions underlying sales and marketing at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. Changes in estimates relating to sales and marketing are recognised prospectively in the period in which the estimate is revised and in any future periods affected. Where the effect of the time value of money is material, amounts relating to sales and marketing are discounted using a pre-tax rate that reflects current market assessments. The Company has not identified any material uncertainty in respect of sales and marketing that would require additional disclosure beyond that provided in this note.

The Company has not identified any material uncertainty in respect of sales and marketing that would require additional disclosure beyond that provided in this note. Where the effect of the time value of money is material, amounts relating to sales and marketing are discounted using a pre-tax rate that reflects current market assessments. Management evaluates the assumptions underlying sales and marketing at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. Changes in

estimates relating to sales and marketing are recognised prospectively in the period in which the estimate is revised and in any future periods affected.

The Company's accounting policy for sales and marketing is applied consistently across all reporting periods presented in these consolidated financial statements. Management evaluates the assumptions underlying sales and marketing at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. Where the effect of the time value of money is material, amounts relating to sales and marketing are discounted using a pre-tax rate that reflects current market assessments.

The Company has not identified any material uncertainty in respect of sales and marketing that would require additional disclosure beyond that provided in this note. Changes in estimates relating to sales and marketing are recognised prospectively in the period in which the estimate is revised and in any future periods affected. Management evaluates the assumptions underlying sales and marketing at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company's accounting policy for sales and marketing is applied consistently across all reporting periods presented in these consolidated financial statements. Where the effect of the time value of money is material, amounts relating to sales and marketing are discounted using a pre-tax rate that reflects current market assessments.

Note 19. General and administrative

Management evaluates the assumptions underlying general and administrative at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. Where the effect of the time value of money is material, amounts relating to general and administrative are discounted using a pre-tax rate that reflects current market assessments. The Company has not identified any material uncertainty in respect of general and administrative that would require additional disclosure beyond that provided in this note. The Company's accounting policy for general and administrative is applied consistently across all reporting periods presented in these consolidated financial statements.

Changes in estimates relating to general and administrative are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company's accounting policy for general and administrative is applied consistently across all reporting periods presented in these consolidated financial statements. Where the effect of the time value of money is material, amounts relating to general and administrative are discounted using a pre-tax rate that reflects current market assessments. The Company has not identified any material uncertainty in respect of general and administrative that would require additional disclosure beyond that provided in this note.

Note 20. Segment and geographic information

Geography	FY2025 revenue	Share	Live sites
Taiwan	1,666,141	52%	23
Japan	769,088	24%	8
United States	768,889	24%	10
Total	3,204,118	100%	41

The United States contributed revenue from three customers in FY2025 (Pacific Fulfillment, MetroParts Dist., Nordic Storage). The first US site was commissioned in October 2025.

Note 21. Fair value measurements

Where the effect of the time value of money is material, amounts relating to fair value measurements are discounted using a pre-tax rate that reflects current market assessments. Management evaluates the assumptions underlying fair value measurements at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company's accounting policy for fair value measurements is applied consistently across all reporting periods presented in these consolidated financial statements. The Company has not identified any material uncertainty in respect of fair value measurements that would require additional disclosure beyond that provided in this note. Changes in estimates relating to fair value measurements are recognised prospectively in the period in which the estimate is revised and in any future periods affected.

The Company has not identified any material uncertainty in respect of fair value measurements that would require additional disclosure beyond that provided in this note. Management evaluates the assumptions underlying fair value measurements at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company's accounting policy for fair value measurements is applied consistently across all reporting periods presented in these consolidated financial statements.

Note 22. Financial instruments and risk

Management evaluates the assumptions underlying financial instruments and risk at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company has not identified any material uncertainty in respect of financial instruments and risk that would require additional disclosure beyond that provided in this note. The Company's accounting policy for financial instruments and risk is applied consistently across all reporting periods presented in these consolidated financial statements. Where the effect of the time value of money is material, amounts relating to financial instruments and risk are discounted using a pre-tax rate that reflects current market assessments.

The Company has not identified any material uncertainty in respect of financial instruments and risk that would require additional disclosure beyond that provided in this note. Management evaluates the assumptions underlying financial instruments and risk at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company's accounting policy for financial instruments and risk is applied consistently across all reporting periods presented in these consolidated financial statements.

Management evaluates the assumptions underlying financial instruments and risk at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. Where the effect of the time value of money is material, amounts relating to financial instruments and risk are discounted using a pre-tax rate that reflects current market assessments. Changes in estimates relating to financial instruments and risk are recognised prospectively in the period in which the estimate is revised and in any future periods affected.

Management evaluates the assumptions underlying financial instruments and risk at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company has not identified any material uncertainty in respect of financial instruments and risk that would require additional disclosure beyond that provided in this note. Changes in estimates relating to financial instruments and risk are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company's accounting policy for financial instruments and risk is applied consistently across all reporting periods presented in these consolidated financial statements. Where the effect of the time value of money is material, amounts relating to financial instruments and risk are discounted using a pre-tax rate that reflects current market

assessments.

Note 23. Warranty provisions

Where the effect of the time value of money is material, amounts relating to warranty provisions are discounted using a pre-tax rate that reflects current market assessments. Management evaluates the assumptions underlying warranty provisions at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company has not identified any material uncertainty in respect of warranty provisions that would require additional disclosure beyond that provided in this note.

The Company's accounting policy for warranty provisions is applied consistently across all reporting periods presented in these consolidated financial statements. Changes in estimates relating to warranty provisions are recognised prospectively in the period in which the estimate is revised and in any future periods affected. Where the effect of the time value of money is material, amounts relating to warranty provisions are discounted using a pre-tax rate that reflects current market assessments. The Company has not identified any material uncertainty in respect of warranty provisions that would require additional disclosure beyond that provided in this note. Management evaluates the assumptions underlying warranty provisions at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts.

Note 24. Contingencies

Management evaluates the assumptions underlying contingencies at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. Changes in estimates relating to contingencies are recognised prospectively in the period in which the estimate is revised and in any future periods affected. Where the effect of the time value of money is material, amounts relating to contingencies are discounted using a pre-tax rate that reflects current market assessments.

Where the effect of the time value of money is material, amounts relating to contingencies are discounted using a pre-tax rate that reflects current market assessments. The Company has not identified any material uncertainty in respect of contingencies that would require additional disclosure beyond that provided in this note. The Company's accounting policy for contingencies is applied consistently across all reporting periods presented in these consolidated financial statements.

The Company's accounting policy for contingencies is applied consistently across all reporting periods presented in these consolidated financial statements. Changes in estimates relating to contingencies are recognised prospectively in the period in which the estimate is revised and in any future periods affected. Where the effect of the time value of money is material, amounts relating to contingencies are discounted using a pre-tax rate that reflects current market assessments. Management evaluates the assumptions underlying contingencies at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company has not identified any material uncertainty in respect of contingencies that would require additional disclosure beyond that provided in this note.

Note 25. Employee benefits

Changes in estimates relating to employee benefits are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company has not identified any material uncertainty in respect of employee benefits that would require additional disclosure beyond that provided in this note.

Management evaluates the assumptions underlying employee benefits at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. Where the effect of the time value of money is material, amounts relating to employee benefits are discounted using a pre-tax rate that reflects current market assessments.

Where the effect of the time value of money is material, amounts relating to employee benefits are discounted using a pre-tax rate that reflects current market assessments. Management evaluates the assumptions underlying employee benefits at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company has not identified any material uncertainty in respect of employee benefits that would require additional disclosure beyond that provided in this note. Changes in estimates relating to employee benefits are recognised prospectively in the period in which the estimate is revised and in any future periods affected.

Note 26. Share capital

The Company's accounting policy for share capital is applied consistently across all reporting periods presented in these consolidated financial statements. Changes in estimates relating to share capital are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company has not identified any material uncertainty in respect of share capital that would require additional disclosure beyond that provided in this note.

The Company's accounting policy for share capital is applied consistently across all reporting periods presented in these consolidated financial statements. Management evaluates the assumptions underlying share capital at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. Changes in estimates relating to share capital are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company has not identified any material uncertainty in respect of share capital that would require additional disclosure beyond that provided in this note. Where the effect of the time value of money is material, amounts relating to share capital are discounted using a pre-tax rate that reflects current market assessments.

Note 27. Related Party Transactions

During fiscal 2025 the Company purchased controller sub-assemblies and precision components from Harbor Peak Components LLC ("Harbor Peak"), an entity wholly owned by Daniel Wu, the Company's Founder and Chief Executive Officer. Purchases totalled US\$640,120 (FY2024: nil) and represented approximately 34% of total component purchases for the year. Amounts payable to Harbor Peak at December 31, 2025 were US\$88,400 and are included in accounts payable.

Management believes the prices paid approximate those that would be obtained from unrelated suppliers; no independent benchmarking was performed. The arrangement was approved by the Board of Directors in February 2025 with Mr. Wu abstaining. No written supply agreement was in place at December 31, 2025. These transactions are not described in the Series A investor presentation.

Other than as described above and the compensation of key management personnel (Note 25), there were no transactions with related parties during the year.

Note 28. Commitments

Management evaluates the assumptions underlying commitments at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company has not identified any material uncertainty in respect of commitments that would require additional disclosure beyond that provided in this note. Where the effect of the time value of money is material, amounts relating to commitments are discounted using a pre-tax rate that reflects current market assessments. Changes in estimates relating to commitments are recognised prospectively in the period in which the estimate is revised and in any future periods affected.

The Company has not identified any material uncertainty in respect of commitments that would require additional disclosure beyond that provided in this note. Management evaluates the assumptions underlying commitments at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. Where the effect of the time value of money is material, amounts relating to commitments are discounted using a pre-tax rate that reflects current market assessments.

The Company's accounting policy for commitments is applied consistently across all reporting periods presented in these consolidated financial statements. Management evaluates the assumptions underlying commitments at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company has not identified any material uncertainty in respect of commitments that would require additional disclosure beyond that provided in this note. Where the effect of the time value of money is material, amounts relating to commitments are discounted using a pre-tax rate that reflects current market assessments.

Where the effect of the time value of money is material, amounts relating to commitments are discounted using a pre-tax rate that reflects current market assessments. The Company's accounting policy for commitments is applied consistently across all reporting periods presented in these consolidated financial statements. Changes in estimates relating to commitments are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company has not identified any material uncertainty in respect of commitments that would require additional disclosure beyond that provided in this note.

Note 29. Capital management

The Company's accounting policy for capital management is applied consistently across all reporting periods presented in these consolidated financial statements. Changes in estimates relating to capital management are recognised prospectively in the period in which the estimate is revised and in any future periods affected. Where the effect of the time value of money is material, amounts relating to capital management are discounted using a pre-tax rate that reflects current market assessments. The Company has not identified any material uncertainty in respect of capital management that would require additional disclosure beyond that provided in this note. Management evaluates the assumptions underlying capital management at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts.

Management evaluates the assumptions underlying capital management at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company has not identified any material uncertainty in respect of capital management that would require additional disclosure beyond that provided in this note. The Company's accounting policy for capital management is applied consistently across all reporting periods presented in these consolidated financial statements. Changes in estimates relating to capital management are recognised prospectively in the period in which the estimate is revised and in any future periods affected. Where the effect of the time value of money is material, amounts

relating to capital management are discounted using a pre-tax rate that reflects current market assessments.

Where the effect of the time value of money is material, amounts relating to capital management are discounted using a pre-tax rate that reflects current market assessments. Management evaluates the assumptions underlying capital management at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company's accounting policy for capital management is applied consistently across all reporting periods presented in these consolidated financial statements. Changes in estimates relating to capital management are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company has not identified any material uncertainty in respect of capital management that would require additional disclosure beyond that provided in this note.

Note 30. Earnings per share

The Company's accounting policy for earnings per share is applied consistently across all reporting periods presented in these consolidated financial statements. Changes in estimates relating to earnings per share are recognised prospectively in the period in which the estimate is revised and in any future periods affected. Where the effect of the time value of money is material, amounts relating to earnings per share are discounted using a pre-tax rate that reflects current market assessments. The Company has not identified any material uncertainty in respect of earnings per share that would require additional disclosure beyond that provided in this note.

The Company's accounting policy for earnings per share is applied consistently across all reporting periods presented in these consolidated financial statements. Changes in estimates relating to earnings per share are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company has not identified any material uncertainty in respect of earnings per share that would require additional disclosure beyond that provided in this note. Where the effect of the time value of money is material, amounts relating to earnings per share are discounted using a pre-tax rate that reflects current market assessments.

The Company has not identified any material uncertainty in respect of earnings per share that would require additional disclosure beyond that provided in this note. Where the effect of the time value of money is material, amounts relating to earnings per share are discounted using a pre-tax rate that reflects current market assessments. Management evaluates the assumptions underlying earnings per share at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company's accounting policy for earnings per share is applied consistently across all reporting periods presented in these consolidated financial statements.

The Company has not identified any material uncertainty in respect of earnings per share that would require additional disclosure beyond that provided in this note. Where the effect of the time value of money is material, amounts relating to earnings per share are discounted using a pre-tax rate that reflects current market assessments. Changes in estimates relating to earnings per share are recognised prospectively in the period in which the estimate is revised and in any future periods affected.

Note 31. Comparative figures

The Company's accounting policy for comparative figures is applied consistently across all reporting periods presented in these consolidated financial statements. Management evaluates the assumptions underlying comparative figures at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. Changes in estimates relating to comparative figures are recognised prospectively in the period in which the estimate is revised and in any future periods affected. Where the effect of the time value of

money is material, amounts relating to comparative figures are discounted using a pre-tax rate that reflects current market assessments.

Changes in estimates relating to comparative figures are recognised prospectively in the period in which the estimate is revised and in any future periods affected. Where the effect of the time value of money is material, amounts relating to comparative figures are discounted using a pre-tax rate that reflects current market assessments. Management evaluates the assumptions underlying comparative figures at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company has not identified any material uncertainty in respect of comparative figures that would require additional disclosure beyond that provided in this note.

Note 32. Government grants

The Company's accounting policy for government grants is applied consistently across all reporting periods presented in these consolidated financial statements. Changes in estimates relating to government grants are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company has not identified any material uncertainty in respect of government grants that would require additional disclosure beyond that provided in this note.

The Company's accounting policy for government grants is applied consistently across all reporting periods presented in these consolidated financial statements. Where the effect of the time value of money is material, amounts relating to government grants are discounted using a pre-tax rate that reflects current market assessments. The Company has not identified any material uncertainty in respect of government grants that would require additional disclosure beyond that provided in this note. Management evaluates the assumptions underlying government grants at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. Changes in estimates relating to government grants are recognised prospectively in the period in which the estimate is revised and in any future periods affected.

The Company has not identified any material uncertainty in respect of government grants that would require additional disclosure beyond that provided in this note. Changes in estimates relating to government grants are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company's accounting policy for government grants is applied consistently across all reporting periods presented in these consolidated financial statements. Management evaluates the assumptions underlying government grants at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. Where the effect of the time value of money is material, amounts relating to government grants are discounted using a pre-tax rate that reflects current market assessments.

The Company's accounting policy for government grants is applied consistently across all reporting periods presented in these consolidated financial statements. Management evaluates the assumptions underlying government grants at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company has not identified any material uncertainty in respect of government grants that would require additional disclosure beyond that provided in this note. Changes in estimates relating to government grants are recognised prospectively in the period in which the estimate is revised and in any future periods affected.

Note 33. Site service agreements

Master service agreements with customers have initial terms of 12 to 36 months with automatic renewal unless terminated on 90 days' notice. Individual site schedules set the number of robots, the monthly subscription fee and per-pick usage rates. Contract expiry dates by customer are maintained in the commercial contract register.

Note 34. Insurance

The Company has not identified any material uncertainty in respect of insurance that would require additional disclosure beyond that provided in this note. Where the effect of the time value of money is material, amounts relating to insurance are discounted using a pre-tax rate that reflects current market assessments. Management evaluates the assumptions underlying insurance at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts.

Changes in estimates relating to insurance are recognised prospectively in the period in which the estimate is revised and in any future periods affected. Where the effect of the time value of money is material, amounts relating to insurance are discounted using a pre-tax rate that reflects current market assessments. Management evaluates the assumptions underlying insurance at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company has not identified any material uncertainty in respect of insurance that would require additional disclosure beyond that provided in this note. The Company's accounting policy for insurance is applied consistently across all reporting periods presented in these consolidated financial statements.

Note 35. Intangible assets

Changes in estimates relating to intangible assets are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company has not identified any material uncertainty in respect of intangible assets that would require additional disclosure beyond that provided in this note. Management evaluates the assumptions underlying intangible assets at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts.

Changes in estimates relating to intangible assets are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company has not identified any material uncertainty in respect of intangible assets that would require additional disclosure beyond that provided in this note. Where the effect of the time value of money is material, amounts relating to intangible assets are discounted using a pre-tax rate that reflects current market assessments. The Company's accounting policy for intangible assets is applied consistently across all reporting periods presented in these consolidated financial statements.

The Company's accounting policy for intangible assets is applied consistently across all reporting periods presented in these consolidated financial statements. Management evaluates the assumptions underlying intangible assets at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. Where the effect of the time value of money is material, amounts relating to intangible assets are discounted using a pre-tax rate that reflects current market assessments. Changes in estimates relating to intangible assets are recognised prospectively in the period in which the estimate is revised and in any future periods affected.

Management evaluates the assumptions underlying intangible assets at each reporting date, considering

historical experience, current conditions and reasonable and supportable forecasts. Changes in estimates relating to intangible assets are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company has not identified any material uncertainty in respect of intangible assets that would require additional disclosure beyond that provided in this note. Where the effect of the time value of money is material, amounts relating to intangible assets are discounted using a pre-tax rate that reflects current market assessments.

Note 36. Impairment testing

Where the effect of the time value of money is material, amounts relating to impairment testing are discounted using a pre-tax rate that reflects current market assessments. Management evaluates the assumptions underlying impairment testing at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. Changes in estimates relating to impairment testing are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company's accounting policy for impairment testing is applied consistently across all reporting periods presented in these consolidated financial statements. The Company has not identified any material uncertainty in respect of impairment testing that would require additional disclosure beyond that provided in this note.

Management evaluates the assumptions underlying impairment testing at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company has not identified any material uncertainty in respect of impairment testing that would require additional disclosure beyond that provided in this note. The Company's accounting policy for impairment testing is applied consistently across all reporting periods presented in these consolidated financial statements.

The Company's accounting policy for impairment testing is applied consistently across all reporting periods presented in these consolidated financial statements. Where the effect of the time value of money is material, amounts relating to impairment testing are discounted using a pre-tax rate that reflects current market assessments. Management evaluates the assumptions underlying impairment testing at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts.

Note 37. Provisions

Management evaluates the assumptions underlying provisions at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company has not identified any material uncertainty in respect of provisions that would require additional disclosure beyond that provided in this note. Where the effect of the time value of money is material, amounts relating to provisions are discounted using a pre-tax rate that reflects current market assessments.

Management evaluates the assumptions underlying provisions at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company has not identified any material uncertainty in respect of provisions that would require additional disclosure beyond that provided in this note. Where the effect of the time value of money is material, amounts relating to provisions are discounted using a pre-tax rate that reflects current market assessments. The Company's accounting policy for provisions is applied consistently across all reporting periods presented in these consolidated financial statements. Changes in estimates relating to provisions are recognised prospectively in the period in which the estimate is revised and in any future periods affected.

The Company has not identified any material uncertainty in respect of provisions that would require additional

disclosure beyond that provided in this note. Management evaluates the assumptions underlying provisions at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. Changes in estimates relating to provisions are recognised prospectively in the period in which the estimate is revised and in any future periods affected.

Note 38. Foreign currency

Where the effect of the time value of money is material, amounts relating to foreign currency are discounted using a pre-tax rate that reflects current market assessments. Management evaluates the assumptions underlying foreign currency at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. Changes in estimates relating to foreign currency are recognised prospectively in the period in which the estimate is revised and in any future periods affected.

Where the effect of the time value of money is material, amounts relating to foreign currency are discounted using a pre-tax rate that reflects current market assessments. The Company has not identified any material uncertainty in respect of foreign currency that would require additional disclosure beyond that provided in this note. The Company's accounting policy for foreign currency is applied consistently across all reporting periods presented in these consolidated financial statements. Changes in estimates relating to foreign currency are recognised prospectively in the period in which the estimate is revised and in any future periods affected. Management evaluates the assumptions underlying foreign currency at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts.

Management evaluates the assumptions underlying foreign currency at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. Changes in estimates relating to foreign currency are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company has not identified any material uncertainty in respect of foreign currency that would require additional disclosure beyond that provided in this note.

Management evaluates the assumptions underlying foreign currency at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. Changes in estimates relating to foreign currency are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company has not identified any material uncertainty in respect of foreign currency that would require additional disclosure beyond that provided in this note.

Note 39. Events after the reporting period (other)

Management evaluates the assumptions underlying events after the reporting period (other) at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company has not identified any material uncertainty in respect of events after the reporting period (other) that would require additional disclosure beyond that provided in this note. Changes in estimates relating to events after the reporting period (other) are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company's accounting policy for events after the reporting period (other) is applied consistently across all reporting periods presented in these consolidated financial statements.

The Company has not identified any material uncertainty in respect of events after the reporting period (other) that would require additional disclosure beyond that provided in this note. Where the effect of the time value of money is material, amounts relating to events after the reporting period (other) are discounted using a pre-tax rate that reflects current market assessments. Management evaluates the assumptions underlying events after the

reporting period (other) at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts.

Changes in estimates relating to events after the reporting period (other) are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company's accounting policy for events after the reporting period (other) is applied consistently across all reporting periods presented in these consolidated financial statements. Where the effect of the time value of money is material, amounts relating to events after the reporting period (other) are discounted using a pre-tax rate that reflects current market assessments.

Note 40. Supplier concentration

The Company sources LiDAR modules from a single supplier and battery packs from two suppliers. Controller sub-assemblies are sourced from Harbor Peak Components LLC (Note 27) and one unrelated contract manufacturer.

Note 41. Credit Facility — Covenants and Change of Control

On September 30, 2025 the Company entered into a US\$1,500,000 term credit facility with First Pacific Bank. The facility was fully drawn on October 3, 2025, bears interest at SOFR plus 4.25% and matures on September 30, 2027. It is secured by a first-priority lien on substantially all robotics equipment (Note 7).

Financial covenant: the Company must maintain unrestricted cash of not less than US\$2,000,000, tested quarterly. At December 31, 2025 the Company was in compliance.

Consent rights: without the prior written consent of the lender the Company may not (i) issue equity securities for aggregate proceeds exceeding US\$5,000,000 in any twelve-month period, (ii) undergo a change of control, defined as any transaction after which any person or group holds more than 50% of voting power or the right to appoint a majority of the board, (iii) incur additional indebtedness exceeding US\$250,000, or (iv) dispose of pledged equipment outside the ordinary course. Failure to obtain consent constitutes an event of default entitling the lender to accelerate all amounts outstanding.

Management notes that the proposed Series A financing of US\$8,000,000 would require lender consent under clause (i). Consent had not been requested as at the date of these financial statements. The facility and its consent rights are not described in the Series A investor presentation.

Note 42. Reconciliation of non-GAAP measures

Management evaluates the assumptions underlying reconciliation of non-gaap measures at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. Where the effect of the time value of money is material, amounts relating to reconciliation of non-gaap measures are discounted using a pre-tax rate that reflects current market assessments. The Company's accounting policy for reconciliation of non-gaap measures is applied consistently across all reporting periods presented in these consolidated financial statements. Changes in estimates relating to reconciliation of non-gaap measures are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company has not identified any material uncertainty in respect of reconciliation of non-gaap measures that would require additional disclosure beyond that provided in this note.

Management evaluates the assumptions underlying reconciliation of non-gaap measures at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. Changes in estimates relating to reconciliation of non-gaap measures are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company's accounting policy for reconciliation of non-gaap measures is applied consistently across all reporting periods presented in these consolidated financial statements. Where the effect of the time value of money is material, amounts relating to reconciliation of non-gaap measures are discounted using a pre-tax rate that reflects current market assessments.

Where the effect of the time value of money is material, amounts relating to reconciliation of non-gaap measures are discounted using a pre-tax rate that reflects current market assessments. The Company has not identified any material uncertainty in respect of reconciliation of non-gaap measures that would require additional disclosure beyond that provided in this note. Management evaluates the assumptions underlying reconciliation of non-gaap measures at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company's accounting policy for reconciliation of non-gaap measures is applied consistently across all reporting periods presented in these consolidated financial statements.

Note 43. Board of Directors and management

The Board of Directors comprises Daniel Wu (Chair and CEO), Grace Lin (CTO), one director appointed by Vertex Growth Fund LP under the Seed round shareholders' agreement, and one independent director. Vertex Growth Fund LP held 1,500,000 shares (15.0%) at the record date of the shareholder register dated March 15, 2026.

Note 44. Approval of financial statements

Changes in estimates relating to approval of financial statements are recognised prospectively in the period in which the estimate is revised and in any future periods affected. The Company's accounting policy for approval of financial statements is applied consistently across all reporting periods presented in these consolidated financial statements. Management evaluates the assumptions underlying approval of financial statements at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts.

Where the effect of the time value of money is material, amounts relating to approval of financial statements are discounted using a pre-tax rate that reflects current market assessments. Management evaluates the assumptions underlying approval of financial statements at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company has not identified any material

uncertainty in respect of approval of financial statements that would require additional disclosure beyond that provided in this note. The Company's accounting policy for approval of financial statements is applied consistently across all reporting periods presented in these consolidated financial statements.

The Company's accounting policy for approval of financial statements is applied consistently across all reporting periods presented in these consolidated financial statements. Where the effect of the time value of money is material, amounts relating to approval of financial statements are discounted using a pre-tax rate that reflects current market assessments. Changes in estimates relating to approval of financial statements are recognised prospectively in the period in which the estimate is revised and in any future periods affected.

Note 45. Glossary

Where the effect of the time value of money is material, amounts relating to glossary are discounted using a pre-tax rate that reflects current market assessments. Changes in estimates relating to glossary are recognised prospectively in the period in which the estimate is revised and in any future periods affected. Management evaluates the assumptions underlying glossary at each reporting date, considering historical experience, current conditions and reasonable and supportable forecasts. The Company's accounting policy for glossary is applied consistently across all reporting periods presented in these consolidated financial statements.
